Workshop objectives

This workshop provides an opportunity to all those interested in game theory.

It is a one-day workshop starting at 9 a.m., with 4 sessions about resource allocation, networks, NTU, matching & assignment. Kózczy, Jordi Massó, William Thomson, Cori Vilella-José Manuel Giménez-Gómez, and Shmuel Zamir.

Additionally, during the breaks, researchers are encouraged to present preliminary results by posters that are broadly consistent with the workshop.

Submission of posters

Posters should be submitted (in pdf format) to grode@urv.cat by April 10th, 2022. Authors are allowed to submit only one poster. Information about acceptance will be communicated by April 17th.

As this workshop intends to create a network among researchers working on game theory, participation without either paper presentation or poster is also encouraged. In this case, please send us an e-mail indicating your interest in attending the workshop (before the end of March, for the sake of organizing).
